ACTIVE ALIGNERS

FOR ADULTS AND TEENS

Straight teeth, without braces.

Active Aligners are clear, removable aligners, custom-made for your teeth.

2 mm trimline

A smooth, straight edge, 2 mm over your gum line, that reinforces the whole aligner for a firmer grip and better force delivery.

Clear and discreet

Straighten your teeth without brackets or wires.

Keep your food choices

Removable, so you do not need to change what you eat or your brushing and flossing routine.

Around 6 months on average

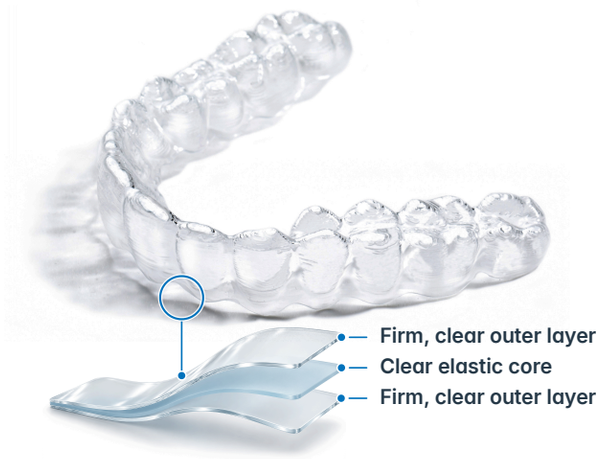

Simpler cases can be shorter and more complex cases can take longer.

Ask us whether Active Aligners are right for you.

ACTIVE ALIGNERS

MADE FOR YOUR SMILE

Advanced tri-layer material

Three layers that balance flexibility, strength, shape stability and force delivery, for longer continuous gentle force.

Could it work for your smile?

From mild cases through to complex.

Ask us whether Active Aligners are right for you.

ACTIVE ALIGNERS *Teen*

FOR TEENS AND PARENTS

Being a teenager is busy enough.

Clear, comfortable and removable, so straightening your smile fits around school, friends, sport and every photo along the way.

Good for busy families too

With no brackets or wires to adjust, most people need fewer check-up visits than with fixed braces.
